Emiliano Gonzalez

Senior Reservoir Engineering Specialist | Master's Degree in Big Data and Visual Analytics

Colombia

Extracto

Senior Reservoir Engineer with over a decade of hands on experience in Reservoir and Production Engineering enhanced by a strong background in Data Science and a track record of successfully executing projects aimed at optimizing production and increasing reserves. Demonstrated leadership in spearheading and executing complex engineering projects requiring decisive decision-making and intricate problem-solving. Proven experience in Reservoir Simulation, Field Development Plan, Planning and Economics and Reservoir Exploration Characterizations. Proficient in collaborating with multidisciplinary teams to implement strategies that boost production and enhance reserves. Dedicated to driving innovation while maintaining the industry's rigorous technical standards.

Experiencia

Parex Resources

12 años 11 meses

Senior Reservoir Engineering Specialist

agosto de 2025 - Present (10 meses)

Calgary, Alberta, Canada

Senior Reservoir Engineer

septiembre de 2024 - julio de 2025 (11 meses)

Bogotá, Capital District, Colombia

Senior Reservoir Engineer

enero de 2024 - agosto de 2024 (8 meses)

Calgary, Alberta, Canada

Reservoir Engineer

febrero de 2022 - diciembre de 2023 (1 año 11 meses)

Calgary, Alberta, Canada

- Reservoir simulation utilizing industry-standard software such as CMG and Intersect/Petrel RE.
- Assessment of production characteristics, ultimate recovery and development scenarios in a fully integrated internal assessment subsurface opportunities.
- Evaluation of Business Development Opportunities and provide the Engineering, Economic and Business evaluations to support the G&G technical assessment.
- Participation in development planning of discovered fields, including assessment of development options with economic and business support.
- Machine Learning algorithms to optimize history match timing using proxy models.

Reservoir Engineer

julio de 2018 - febrero de 2022 (3 años 8 meses)

Bogotá, Capital District, Colombia

- Acknowledged formation damage through PTA and designed nano-fluid stimulation treatment to reduce formation damage through research study with collaboration of National University.
- Identified intervention opportunities and executed workovers including hydraulic fractures and chemical stimulations, resulted in lifted the production +1000 BOPD average all year.
- Prepared company production forecast and contributed to ensure the production goals accomplishment.

Jr Production Engineer

agosto de 2014 - junio de 2018 (3 años 11 meses)

Casanare, Colombia

- Monitored and managed day to day operations of oil and gas producing fields and to minimize downtimes.
- Responsible for production output, product quality, on-time shipping, and plant equipment reliability of different oil and gas producing fields.
- Managed operative team of six to ten workers.

Jr Production Engineer

julio de 2013 - julio de 2014 (1 año 1 mes)

Bogotá

- Prepared and analysed operation reports such as: Oil and gas well performances, waterflooding, gas generation, ALS performances, sales, stock, and operational parameters.

- Managed and maintenance of company databases using SQL Server and Corex software.

Educación

UNIR

Master's degree, Big Data and Visual Analytics · (2019 - 2022)

Universidad Surcolombiana

Bachelor's degree, Petroleum Engineering · (2009 - 2013)

Servicio Nacional de Aprendizaje (SENA)

Computer Technologist, Data management, software development, User Interface design. · (octubre de 2016 - octubre de 2018)
